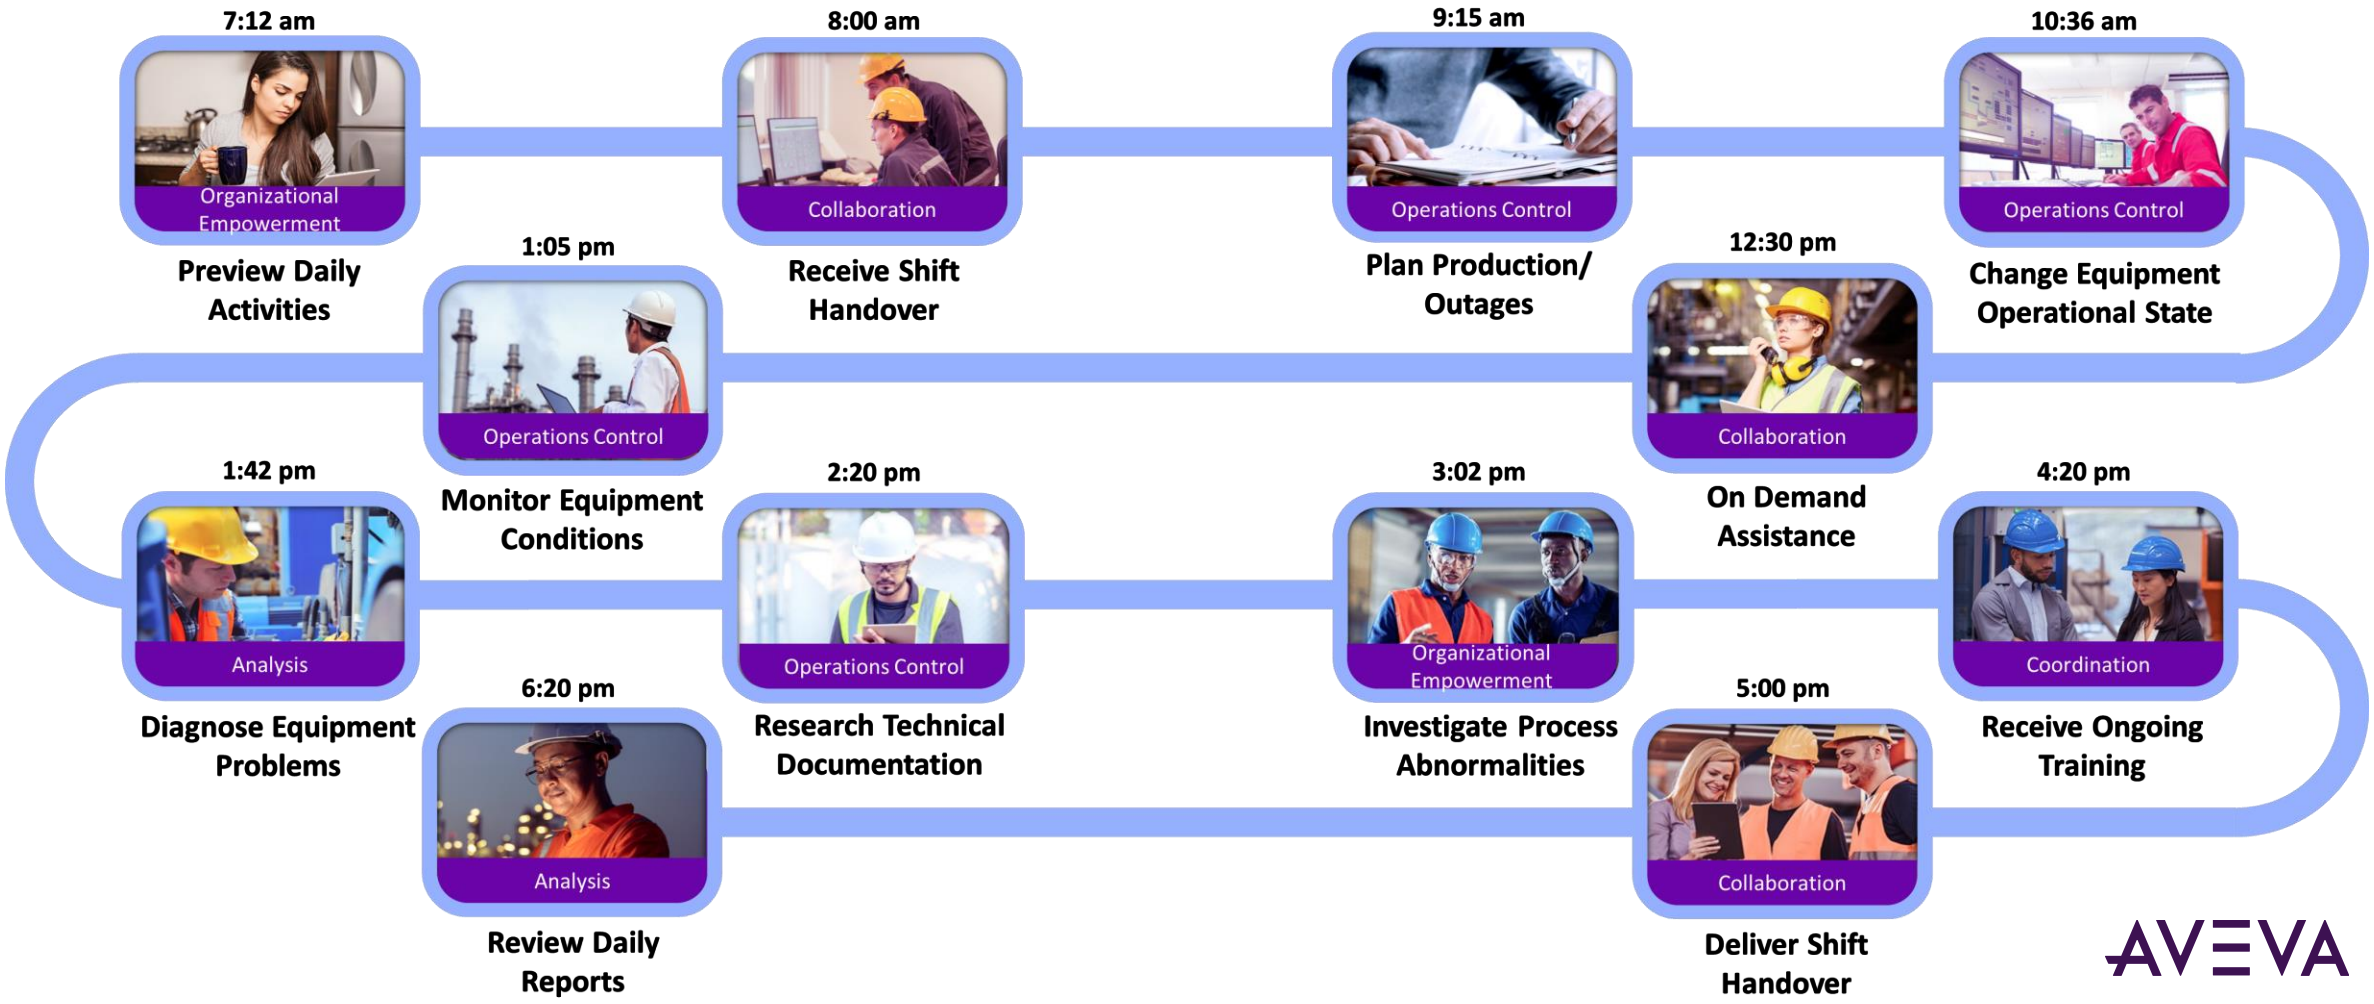
Operations – A Day in the Life

Enabled By AVEVA Operations Control – Hybrid SaaS Solution



Collaboration/Coordination

AVEVA Teamwork

Key functions:

Digital Knowledge

Scan QR codes to quickly access a standardized library of instructions, videos and troubleshooting content.

Skills Management

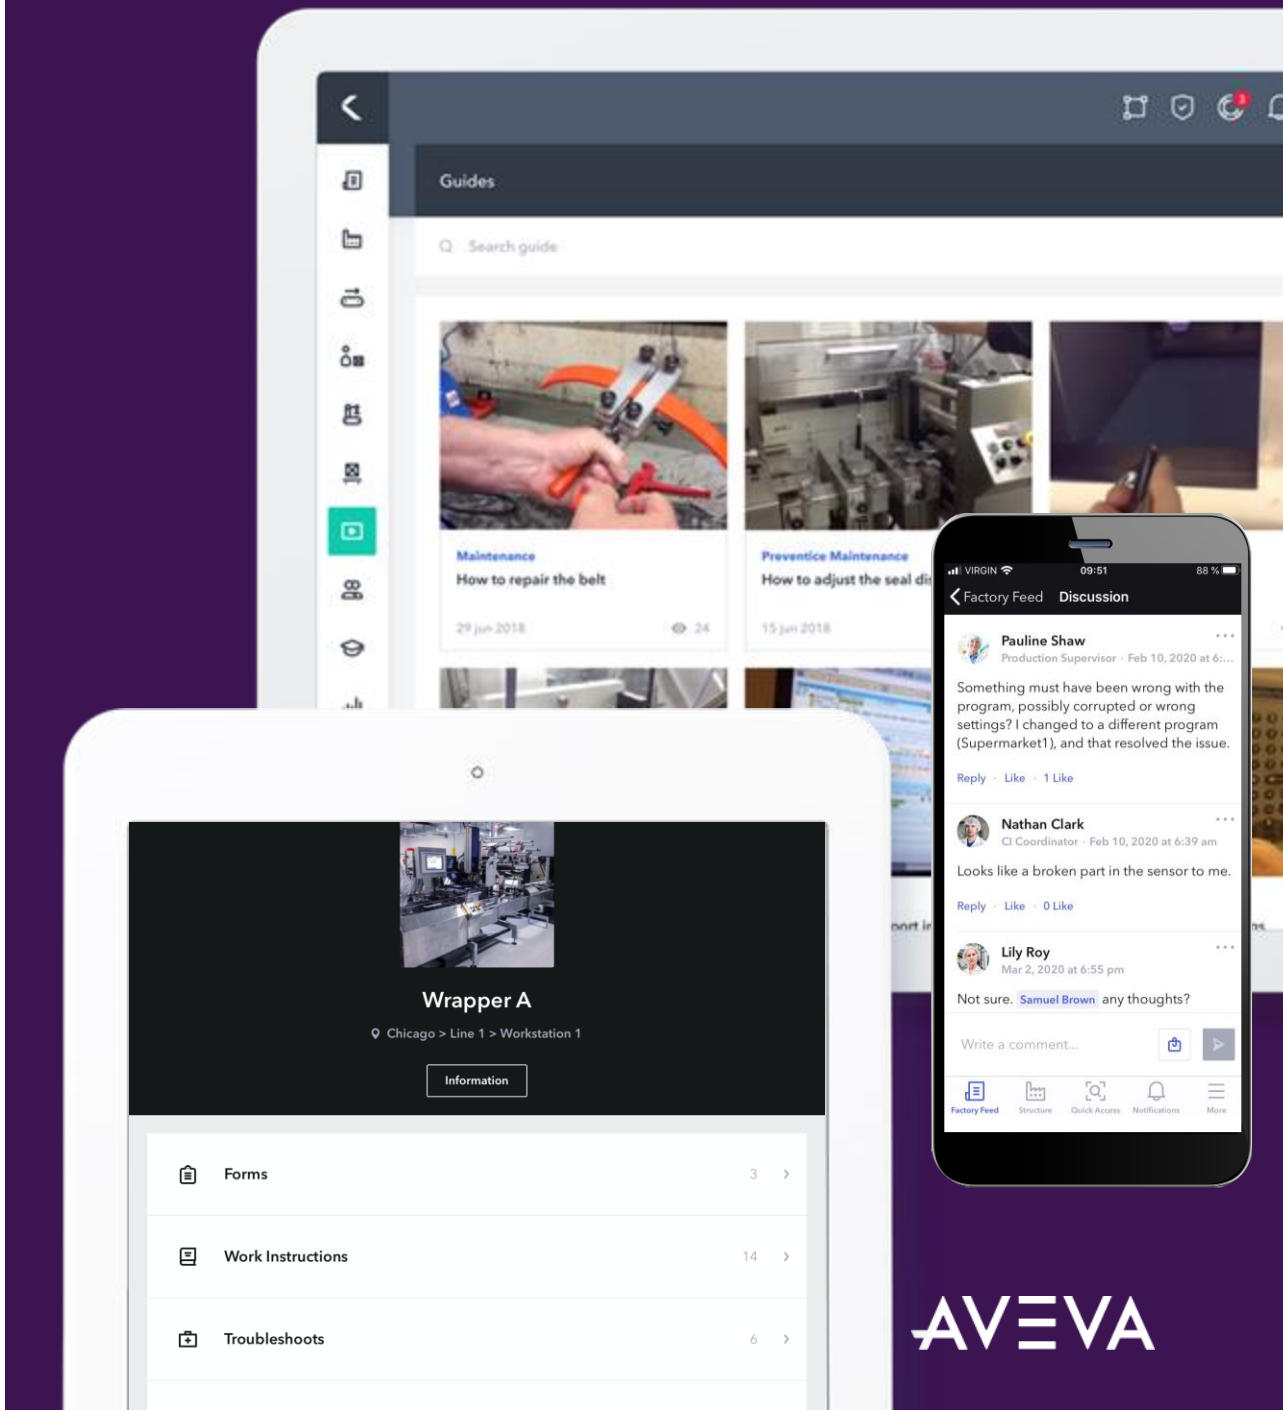
Deliver and track training for new hires, upskilling and certifications with a review pane to view pending and completed training.

Communication

Connect with workers across shifts and facilities to solve problems. Share insights in a logbook and continuously grow the archive of knowledge.

Issues Management

Capture, track and resolve problems through call for help escalation and collaboration with subject matter experts.



For Internal Use Only. ©2022 AVEVA Group plc and its subsidiaries. All rights reserved.

Organizational Empowerment

AVEVA Insight

Key functions:

Actionable Insights

With the rise of remote working, your teams must be empowered to make agile decisions and transform operations with quick access to actionable information.

Increase collaboration

Empower the connected worker and break down silos with a single source of truth and customized alerts for better, faster decisions.

Unlock critical data

Access contextualized data from multiple sources while automatically identifying process anomalies in a single cloud environment to gain operational insights anywhere, any time.

Drive operational performance

Fully understand your operations with a digital twin that combines corporate and operational KPIs to discover efficiency gains.
